**TRANSPARENCY PLATFORM**

Sign in to your account

Dear Transparency Platform users,

to maintain the top level of security, the Keycloak log-in management solution of the Transparency Platform has been upgraded to the latest version on March 29th, 2021. The cookies stored in your web browser before the upgrade may not be fully compatible with the upgraded version. In case you encounter any problem while logging in, please clear the cookies for this page in your browser.

Under the links below you can find more information about cookies as well as tutorials on how to clear the cookies in major browsers:

Password

Confirm password

[« Back to Login](#)

### 4.1- Click "My Account Settings"

### 4.2- Generate a (new) token

### Confirmation

This action will overwrite the existing security token. Do you wish to proceed?

Cancel

Generate and overwrite

### Web Api Security Token

This is your newly generated Web Api Security Token:

[Redacted token value]

Please, store this token safely. It will **not** be possible to display it again at a later time. Should you ever lose this token, you can generate a new one in My Account Settings.

Understood, close this window
